

Earth Surface Sector meeting 4 September 2014

Agenda

1. How do we run our meetings in the future?
2. Preparing grant applications
3. Scientific journals publication trends (new free-access online “daughter” journals)
4. New geoscience software (EasyCore, StereoStat)
5. Managing storage room at IG
6. Matters arising

Research grants applications – some ideas

Big grants – strong CVs

Project description – transparent, specific, catchy, innovative, realistic

Budget – balanced, safety buffer

Check carefully the goals of the funding agency

Start well before the deadline

Cooperation, networks, teams, co-authorships

Include PhDs and Postdocs

Internal peer-review – feedback, sparring
